### The Project:

General description of proposed project:

Who will own the project/new development once completed?

Existing facilities: (E.g. it's purpose, objectives and current status, size, and condition)

## **Project Costs:**

What is the total amount of money/materials you require from the Juniper Trust?

Break down of what the project will cost: (i.e. materials, land cost, labour, other donor's costs )

## **The Future of the Project:**

After the initial funding of your project, will you require further assistance from the Juniper Trust?

Will you require annual funding to assist your project in the future?

What amount would you require annually from the Juniper Trust?

What would this money be spent on?

Are there any other sponsors for your project?

If so, who and what is their estimated annual donation?

If you DO NOT require additional funding, how do you intend to run the project yourself? (i.e. how do you intend to fund the project in the future?):

How can you guarantee the future sustainability of the project?

Who will look after the project in:

1 year:

5 years:

10 years:

Who/What do you consider will benefit most from the project and why?

Summarise why the Juniper Trust should contribute funds to your project:

I declare that all of the above details are correct and I intend to use the money for the stated purpose. If there are any changes to the project plans or cost I will inform the Juniper Trust immediately.
